His early experiences reflected a natural talent for understanding market psychology and price action, which would later become hallmarks of his trading style.

First Steps in the Market

The Trading Philosophy of Jesse Livermore

Market Trends and the "Turtle" Approach Livermore believed that markets move in identifiable trends, and capitalizing on these trends was the key to success. His philosophy centered around identifying the primary trend and trading in its direction, rather than against it. This approach is similar to modern trend-following strategies, emphasizing patience and discipline.
